MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY AND ECONOMY OVERVIEW

The Indian economy has weathered many challenges successfully in recent times. Markets are optimistic, as a result of various policy measures announced or taken by the Government. The key policy changes include liberalization of foreign direct investment and a large array of investment facilitation measures.

However, some large-ticket changes such as modified labour laws, simplified land acquisition rules and nationwide Goods and Services Tax are still not in place. Due to the sluggish global growth, especially in China, commodity prices have remained low, inflation has moderated and low crude prices have supported the Government's current account deficit commitment. A relatively stable rupee and rising foreign exchange reserves, are key indicators of an improved and stable macro-economic environment. The slowing global economy is not all positive for India, exports have suffered and domestic growth will be critical in FY 2016 -17.

In FY 2015-16, the Government focused on its theme "Transform India". The Budget for FY 2016-17 preferred fiscal prudence and stability over growth. The priorities of the Government were to provide additional resources for the vulnerable sections of society, to rural areas and for creating social and physical infrastructure. The Government encouraged private and public spending, but private investment is not likely to recover in FY 2016-17 as there is significant unutilized capacity and private sector Balance Sheets are stretched. By maintaining fiscal deficit at 3.5%, the Government has precluded the possibility of any direct fiscal stimulus. The positive effect of the Government's fiscal discipline is that it has created conditions for the Reserve Bank of India ("RBI") to cut rates, thereby indirectly benefiting the economy by bringing down the cost of borrowing for both the Government and the private sector. The RBI started cutting rates in FY 2015-16, the transmission of which is likely to happen in FY 2016-17.

OPPORTUNITIES AND THREATS

OPPORTUNITIES

The outlook for the Indian economy and its core sectors was upbeat at the beginning of the current financial year, with the government embarking on large-scale policy reforms and promising to deliver strong economic growth. While this positive mood continues, the appearance of several roadblocks on the domestic front and a demand slowdown globally and in emerging markets have forced sectoral players to rethink their short- and long-term strategy.

Despite the situation outlined above, figures for the next couple of years are encouraging. India has been declared a bright spot in the landscape of global economic development by both the World Bank and International Monetary Fund (IMF). The World Bank has projected growth in India at 7.8% in 2016–17 and at 7.9% in 2017–18, recognizing the progress the country made with infrastructure improvement and the government's endeavours to boost investments, particularly in roads, railways and urban infrastructure. Meanwhile, IMF has kept its growth forecast for India unchanged at 7.5% in 2016–17. IMF too attributed growth to recent policy reforms and a consequent pickup in investment, in spite of lower commodity prices. In comparison, the World Bank's latest Global Economic Prospect report projected growth in China at a modest 6.7% in 2016.

The Monetary Policy Framework Agreement between the Government of India and Reserve Bank of India is a vital step to keep inflation below 6%. This is also supported by the steep decline in the international crude oil prices, which controlled food inflation and increased consumption of the basic commodities in rural areas. Government has announced a number of policy measures to achieve the projected GDP growth in 2015-16 like approval of large infrastructure projects, addressing challenges of mining and power sectors, increasing foreign investment limits in Insurance, Railways, Defence manufacturing and Aerospace. Growth in agricultural sector output will drive demand from rural areas.

In view of the aforesaid initiatives of the Government, our company can also look for growth in current financial year. Your Company being a trading Company seeks opportunities in the stationery and related business.

THREATS

Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- i Uncertainty of political situation in the country leading to concerns of diffused focus on growth and reforms;
- ii Slowing economy, tight monetary policy and continued high inflation leading to decelerating investment demand;

- iii Regulatory changes across the world impacting the landscape of business;
- iv Increased competition from local and global players operating in India;
- v Attrition of employees caused by strong demand from ever increasing number of market participants

OUTLOOK

The outlook for the Indian economy and its core sectors was upbeat at the beginning of the current financial year, with the government embarking on large-scale policy reforms and promising to deliver strong economic growth. While this positive mood continues, the appearance of several roadblocks on the domestic front and a demand slowdown globally and in emerging markets have forced sectoral players to rethink their short- and long-term strategy.

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organization (CSO) and International Monetary Fund (IMF). According to the Economic Survey 2015-16, the Indian economy will continue to grow more than 7 per cent in 2016-17.

The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, RBI's inflation focus supported by benign global commodity prices.

India was ranked the highest globally in terms of consumer confidence during October-December quarter of 2015, continuing its earlier trend of being ranked the highest during first three quarters of 2015, as per the global consumer confidence index created by Nielsen.

According to IMF World Economic Outlook Update (January 2016), Indian economy is expected to grow at 7-7.75 per cent during FY 2016-17, despite the uncertainties in the global market. The Economic Survey 2015-16 had forecasted that the Indian economy will growing by more than seven per cent for the third successive year 2016-17 and can start growing at eight per cent or more in next two years.

Foreign direct investment (FDI) in India have increased by 29 per cent during October 2014-December 2015 period post the launch of Make in India campaign, compared to the 15-month period before the launch.

The steps taken by the government in recent times have shown positive results as India's gross domestic product (GDP) at factor cost at constant (2011-12) prices 2015-16 is Rs 113.5 trillion (US\$ 1.668 trillion), as against Rs 105.5 trillion (US\$ 1.55 trillion) in 2014-15, registering a growth rate of 7.6 per cent. The economic activities which witnessed significant growth were 'financing, insurance, real estate and business services' at 11.5 per cent and 'trade, hotels, transport, communication services' at 10.7 per cent.

According to a Goldman Sachs report released in September 2015, India could grow at a potential 8 per cent on average during from fiscal 2016 to 2020 powered by greater access to banking, technology adoption, urbanisation and other structural reforms.

With strengthening of the economy and the country's growth prospectus looking positive, we concern to be optimistic about the Company's opportunities and potential profit avenues in the trading sector. However, the growth curve may not move steadily upwards in the short to medium term, multiple challenges would tamper the speed of growth in various business.

ROAD AHEAD

The International Monetary Fund (IMF) and the Moody's Investors Service have forecasted that India will witness a GDP growth rate of 7.5 per cent in 2016, due to improved investor confidence, lower food prices and better policy reforms. Besides, according to mid-year update of United Nations World Economic Situation and Prospects, India is expected to grow at 7.6 per cent in 2015 and at 7.7 per cent in 2016.

As per the latest Global Economic Prospects (GEP) report by World Bank, India is leading The World Bank's growth chart for major economies. The Bank believes India to become the fastest growing major economy by 2015, growing at 7.5 per cent.

According to Mr Jayant Sinha, Minister of State for Finance, Indian economy would continue to grow at 7 to 9 per cent and would double in size to US\$ 4-5 trillion in a decade, becoming the third largest economy in absolute terms.

Furthermore, initiatives like Make in India and Digital India will play a vital role in the driving the Indian economy.

B. Remuneration to KMPs and other employees

The policy on remuneration for KMPs and other employees is as below:-

1. Fixed pay

The remuneration and reward structure for employees comprises two broad components - annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees.

These guidelines are as under:

a) Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Employee is required to determine his/her key result areas for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

b) Long-term rewards

Long-term rewards may be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the Committee.

The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director/ Chief Executive officer

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

C. Remuneration/ Setting Fees / Commission to Non-Executive / Independent Directors

1. Remuneration/ Setting Fees / Commission

The remuneration payable to each Non-Executive Director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made there under.

The remuneration to the Non-executive Directors (including Independent Directors) may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

Non-Executive Directors/ Independent Director shall be paid a Setting Fees / Commission as may be decided by the Board of Directors from time to time subject to the limits specified in Companies Act, 2013 and other applicable laws/ Regulations.

2. Stock options

The Independent Directors shall not be entitled to any stock option of the Company.

Policy review

This policy is framed based on the provisions of the Companies Act, 2013 and rules there under and the requirements of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 with the Stock Exchanges.

In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulations which makes any of the provisions in the policy inconsistent with the Act or regulations, then the provisions of the Act or regulations would prevail over the policy and the provisions in the policy would be modified in due course to make it consistent with law.

SHASHANK TRADERS LIMITED

Annexure B to the Independent Auditor's Report of even date on the Financial Statements of SHASHANK TRADERS LIMITED.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SHASHANK TRADERS LIMITED** ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Dear Shareholders,

You are aware that majority of the provisions of Companies Act, 2013 have been made effective from 1st April, 2014. We therefore invite all our shareholders to contribute to the cause by filling up the form given below to receive communication from the Company in electronic mode. You can also download the appended registration form from the website of the Company **www.shashankinfo.in**

[Please note that as a Member of the Company, you will be entitled to receive all such communication in physical form, upon request.]

To support this green initiative in full measure, members who have not registered their E-mail address and PAN Number so far, are requested to register their E-mail address and PAN Number along with self attested copy of their PAN Card.
